The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/823,132	Applicant(s) CHOJNACKI, ROBERT	
	Examiner Venkat Perungavoor	Art Unit 2132	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims ~~29~~³⁶, 38, 40-44, 46-48 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent 7051211 to Matyas et al.(hereinafter Matyas).

Regarding Claim ~~29~~³⁶, Matyas discloses the receiving the receiving of data comprising an encrypted first portion and a unencrypted second portion, where the unencrypted second portion is unusable without decrypting the first portion see Fig. 3 item 12 & 14 & Col 9 Ln 14-33; decrypting the encrypted first portion with a decryption key see Col 13 Ln 21-40; executing the program on the platform to use application including first and second portion where the program is not included with product see Col 9 Ln 4-13 & Col 12 Ln 52-61.

Regarding Claim 30, 40, Matyas discloses the decompression parameters being used see Col 14 Ln 53-61 & Col 9 Ln 50-64.

Regarding Claim 31, 46, Matyas discloses the portion containing indices into data contained in the second portion see Col 9 Ln 50-64 & Col 9 Ln 14-30.

Regarding Claim 32, 47, Matyas discloses the global data containing data product as a whole see Col 11 Ln 30-45.

Regarding Claim 33-36, 41-43, 48, Matyas discloses the encrypted authorization key and decrypting the key to obtain the verification information having ID codes see Col 8 Ln 25-60 & Col 10 Ln 6-19.

Regarding Claim 38, Matyas discloses the processor see Fig. 2 item 238; data storage medium having encrypted first portion and unencrypted second portion, where the first portion has critical data that enables use of data product see Col 13 Ln 21-31 (where the unencrypted portion contains data needed for decrypting); decrypting the encrypted first portion with a decryption key see Col 13 Ln 21-40 and executing the program on the platform to use application including first and second portion where the program is not included with product see Col 9 Ln 4-13 & Col 12 Ln 52-61.

Regarding Claim 44, Matyas discloses the having encrypted first portion and unencrypted second portion, where the first portion has critical data that enables use of data product see Col 13 Ln 21-31 (where the unencrypted portion contains data needed for decrypting); and executing the program on the platform to use application including first and second portion where the program is not included with product see Col 9 Ln 4-13 & Col 12 Ln 52-61.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 37, 39, 45 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent 7051211 to Matyas et al.(hereinafter Matyas) in view of US Patent 6104815 to Alcorn et al.(hereinafter Alcorn).

Regarding Claim 37, 39, 45, Matyas does not disclose the decrypting the geographic database.

However, Alcorn discloses the decrypting the geographic database (where the positional information is encrypted see Fig. 7b item "Receive & decrypt & Send time & Pos. Info to Server"). It would be obvious to one having ordinary skill in the art at the time of the invention to include the decrypting the geographic database in the invention of Matyas in order to send sensitive information to server and the server being able to additional information(user, location and time validity test) as taught in Alcorn see Fig. 4.
